

Danube Transnational Programme

Call announcement for the 2nd Call for Proposals

9th May 2017

1. Introduction

The Danube Transnational Programme is launching the **second call for proposals for its priorities 1, 2 and 3**. The Programme offers financial support to transnational projects contributing to the development of a more innovative, better accessible and sustainable Danube Region. The programme has been designed under the territorial cooperation goal of the European Union. In practice, the programme combines financing from the EU structural funds - European Regional Development Fund (ERDF) and the EU external funds – Instrument for Pre-Accession Assistance (IPA II) and European Neighbourhood Instrument (ENI).

2. Objectives and priorities

Danube Transnational Programme supports the policy **integration in the Danube area** through projects addressing key challenges and opportunities of the region. The strategic vision is “policy integration” in specific fields of action below the EU-level (not duplicating efforts in policy integration at the EU-level e.g. TEN-T) and above the national level. Transnational projects should influence national, regional and local policies (policy driver).

In order to achieve a higher degree of territorial integration of the very heterogeneous Danube region, the transnational cooperation programme will act as a **policy driver** aiming to tackle the common challenges and needs deriving from specific policy fields. Therefore, transnational cooperation is expected to deliver tangible results through the **development and practical implementation of policy frameworks, tools and services**. To this end, the programme looks to promote concrete pilot investments.

The Second call for proposals is open to the Specific Objectives 1.2, 2.2, 2.3, 2.4 and 3.2, restricted to specific topics for the other SOs, and closed for SO 4.1, according to the following table:
